**RE: 1ST ASSISTANT PROSECUTING ATTORNEY COMPLETES
COMPUTER FORENSICS CERTIFICATION**

Ozark, MO - Christian County Prosecuting Attorney, Amy J. Fite is very proud to announce that Christopher W. Lebeck, a 1st Assistant in the Christian County Prosecuting Attorney's Office (CCPA) has recently qualified for certification with the International Association of Computer Investigative Specialists as a Certified Forensic Computer Examiner. Mr. Lebeck who recently joined the CCPA last month began his training while he was with the Taney County Prosecuting Attorney's Office through the Tri-Lakes Internet Crimes Task Force. This certification process involved two-weeks of intensive training, a three month peer review cycle, and a three month formal examination process. With this qualification, Mr. Lebeck could be called to conduct forensic examination of computers for other jurisdictions. These skills will add to his ability to successfully prosecute computer related sex crimes.

Ms. Fite said, "I know Chris has worked very hard and long for this achievement. I am excited for him personally and for how this can benefit the citizens of Christian County."
